Professional Summary

Full Stack Developer (MERN) with hands-on experience designing and deploying scalable web applications using React.js, Node.js, Express.js, MongoDB, and MySQL. Skilled in REST API development, JWT authentication, microservices-oriented architecture, state management, and cloud deployment (Render, Railway, Vercel). Strong foundation in software development lifecycle (SDLC), debugging, performance optimization, and collaborative version-controlled development. Seeking to contribute to scalable backend systems and product-grade software engineering teams.

Technical Skills

- **Languages :** JavaScript, HTML5, CSS3, SQL
- **Frontend :** React.js, Tailwind CSS, EJS
- **Backend:** Node.js, Express.js, Socket.io
- **Databases:** MySQL, MongoDB
- **Core Concepts:** API Integration, JWT Authentication, MVC Architecture, CRUD Operations, RESTful API
- **Tools:** GitHub, VS Code, Postman, Render, Railway, Vercel
- **Practices:** Git Version Control, Agile/SDLC, API Security, Debugging & Testing, Performance Optimization, Cloud Deployment

Experience

Full Stack Developer Intern

Kvon Tech Consultancy Services Pvt. Ltd. | Jaipur, Rajasthan

01/2026 – Present

- Contributed to development of scalable full-stack web applications using React.js, Node.js, Express.js, and MongoDB, supporting end-to-end SDLC from design to deployment.
- Built responsive, component-based UI with React.js and integrated secure REST APIs, improving application responsiveness and reducing load times.
- Implemented JWT-based authentication and real-time features, strengthening API security and session management across the application.
- Collaborated with cross-functional teams using Git-based version control, participated in code reviews, and optimized backend queries to improve application performance.

Backend Developer Intern

Garg Web Infotech Pvt. Ltd. | Alwar, Rajasthan

06/2025 – 08/2025

- Designed and maintained RESTful backend APIs using Node.js and Express.js following MVC architecture, supporting scalable business logic.
- Optimized MongoDB and MySQL database schemas and queries for efficient CRUD operations, improving data retrieval performance.
- Implemented authentication and authorization logic, strengthening API security across server-side modules.
- Debugged and resolved performance bottlenecks, contributing to reliable deployment of production-ready backend solutions.

Projects

Socket.ly (Real-Time Chat Application)

GitHub: github.com/AYU-17/Socket.ly

Tech Stack: React.js, Node.js, Express.js, Socket.IO, MySQL

- Built a scalable real-time chat application using Socket.IO, supporting concurrent bidirectional communication with optimized message delivery and minimal latency.
- Implemented user authentication, online/offline status handling, and live messaging features.
- Developed scalable backend APIs and integrated MongoDB for message and user data storage.
- Created a responsive chat interface optimized for smooth real-time interaction.

Sales Management System

GitHub: github.com/AYU-17/sales-management-system

Tech Stack: React.js, Node.js, Express.js, MySQL, Tailwind CSS

- Architected a full-stack sales management system with MVC structure, streamlining product sales tracking and reducing manual record-keeping workflows.
- Built responsive admin dashboards with dynamic data rendering and CRUD operations.
- Implemented backend APIs and database integration for efficient sales tracking and management.
- Designed a clean and user-friendly interface using Tailwind CSS for better usability.

BoxOffice (Movie Ticket Booking)

GitHub: github.com/AYU-17/BoxOffice

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Developed a movie booking platform with optimized React component rendering and responsive UI, improving page load performance across devices.
- Built dynamic movie listing and booking-related frontend components with React.js.
- Integrated backend services and database management for handling application data.
- Improved user experience with responsive layouts and interactive UI components.

Education

Master's of computer Application (MCA)

LORDS UNIVERSITY, ALWAR

08/2024-05/2026
